

## - PRODUCTION MANAGER BALI -

Our customer, an Italian owned furniture company producing high-end furniture on the Indonesian island of Bali is looking for a new production manager.

Their products can be found throughout the world's most prestigious hotels, resorts, spas and in homes of people with passion for beautiful and unique things. Their head-office and showroom are located in Sanur from there they also manage the production facility in Tabanan. Learn more about them and their work on [carloshowroom.com](http://carloshowroom.com).

They are looking for a master cabinet-maker (Schreinermeister) or woodworking engineer (Holztechniker) to become their new production manager on Bali. Their preferred candidate is an experienced hands-on team player with intercultural management and people skills, who will lead the Balinese and Indonesian workforce to the next level of performance. Vast technical know-how will make him an innovative & creative solution finder, who masters challenges on the production floor and in the administration as well. A professional background from the super yacht industry or from the high-end interior fit-out will be considered as an asset, but is not a must. He / she must be willing to settle on Bali.

The company will provide all necessary permits and assists settling in. Due to the Indonesian labor laws, candidates shall apply only if they are clearly below an age of fifty years. Good command of English language is necessary and the willingness to learn Bahasa Indonesia is expected.

Please do apply also if you are uncertain about your qualifications, you still might be an interesting candidate. First interviews will be held in North Germany.
